Individual orders

A special container to secure the aluminium foil lids for cups. Used for in-operational transport.

Moulds for the production of confectionery. The 2in1 function – the possibility of obtaining the desired shape and the ready-to-use packaging element that perfectly protects the content.

„Fish’ packaging. Non-standard shapes of packaging relating to the type of product it contains.

Individual orders

Discover Poli's full range of capabilities. We are able to provide fully individual solutions using our Design Department, CNC Department and modern machine park.

According to the customer's requirements we can customize:

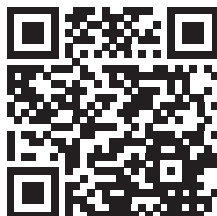

- dimensions
- function
- colour
- finishing detail

or realise a completely new concept.

In order to check the functionality and practicality of the applied solutions all projects are verified by us in the form of prototypes which are prepared in the production environment.
