Furniture accessories

Thermoforming offers unlimited possibilities

For more than 40 years the company Poli has designed and produced furniture accessories by way of thermoforming. Our products are sustainable in terms of the use of adequate raw materials, optimising design and easy operation. In our diversified portfolio there are various products, adjusted to fit market trends and preferences of recipients. A modern design in combination with reliable technical solutions allow our products for long-term presence in furniture industry.

What distinguishes our products?

- they are durable, for long use, do not bend or break
- owing to the application of adequate raw material for production and advanced technology, they maintain rigidity and colour in every formed location
- they reach the client in a perfect condition - inserts with material thickness of 2 mm and bathroom inserts are covered with a protective film, which guarantees that they are kept clean and prevents them from scratches
- they are offered in series of types for application in drawers of different sizes

Solutions for furniture industry

■ Drawer inserts:

- Bathroom inserts
- Drawer organisers
- Inserts for cutlery and kitchen accessories
- Inserts for plates
- Inserts for spices
- Medical/cosmetic inserts

■ Upholstered furniture accessories:

- Hoist shields

■ Drip trays

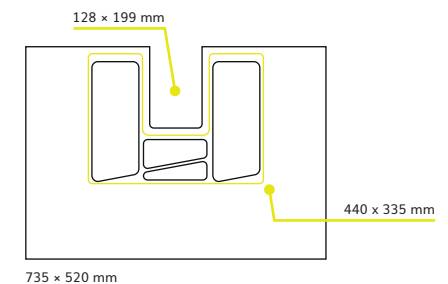

Bathroom insert GEOMETRIC

- "U" shaped cut allows to apply this insert in a drawer under the washbowl in your bathroom
- the set is composed of an insert, two containers and two covers
- a large flange gives an option of cutting the insert to different dimensions of the drawer and provides an additional storage surface
- mobile containers ensure easy use and keeping order
- covers protect the content of containers and their shape allows for storage of small objects therein
- application of adequate materials and forming structure protects from scratches and allows to keep cleanliness in such a demanding space as your bathroom
- all elements of the set are covered with protective film which prevents the insert from scratches and guarantees its cleanliness until the moment of reaching the end user
